Strategic Retail Leadership

Over the past 30 years, we've trained hundreds of Retail Leaders. We've been impressed often, and at the same time recognized where most need to improve to be able to take that next step in their development. This program fills that void. This 2-Day Retail Leadership Summit is designed to help you:

- Become the Leader your teams need you to be
- Take the steps needed to be ready for a higher position
- Get better, more consistent results from your stores

This intensive workshop has been designed to create more effective Leaders. Ones that get results and are ready to take on the next challenge in their careers.

Critical Thinking Skills: Making Better Decisions

Leaders at every level are faced with frequent choices about strategy and direction, conflicts and plans. They need the skills of critical thinking in order to make the best decisions (ones they often struggle with). Learn:

- How to recognize deceptive reasoning and emotional manipulation and how to deal with it
- Identify different styles of critical, and non-critical, thinking
- Learn how to recognize and evaluate potential arguments for and against decisions
- Practice how you can develop and evaluate explanations to your real world problems

Influential Leadership

The most successful Managers have grown into strong Leaders. They're not just task masters, delegators and managers. They possess the Leadership skills needed in order to have their teams want to follow them. Learning how to be influential as a Leader is what this module is all about.

- Learn how to create a deep connection to your teams through starting with W
- Discover how you can become an Authentic Leader that gets consistent results
- Learn how to inspire, influence and achieve results through your Leadership
- You'll complete the Leadership Assessment to discover your strengths and opportunities
- Take an introspective look at what it takes to be a top and respected Leader

Building An Engaged Team

We've seen the end of business as we know it, where employees were merely assets to be leveraged. To get the productivity you need, you need to create an engaged workforce that cares as much about business success as you do. When you do, staff turnover rates plummet and sales rise dramatically.

- Learn how the best managed companies keep morale and engagement levels high
- Discover how you can navigate the multi-generational workforce and get results
- How to put the kibosh on negativity in your stores
- Take back dozens of strategies to create an engaged team ... ideas that are practical and effective at getting you better employee performance

Top RESULTS

Using Accountability To Get Better Results

Success has to matter. For you. For the stores. Accountability is one of the foundations for achieving success, yet in reality, we see it often go by the wayside in favour of excuses, fear of conflict and complacency. This module will show you:

- The power of personal accountability ... yes, holding yourself accountable first!
- How to instill a culture of accountability in your business
- How a simple approach to setting and maintaining standards will increase accountability faster than anything else ... and become sustainable

Powerful Communication

If there's one major opportunity for improvement in the hundreds of Retail Leaders we've trained it's in improving their communication skills. You can be the smartest one in the room, but if you can't communicate your ideas effectively you'll never get your points across.

- Using the art of asking questions to get to your points across
- How to use negotiating skills to win more than you lose
- Getting your voice and body working to make your communication more powerful
- 3 power communicating strategies to use right away

Talent Development

As a Retail Leader, you're in the talent development business. Period. Full stop. Your odds of winning are directly related to the talent in your stores. We've created for you some powerful tools to help you evaluate your management teams and more importantly, begin to develop them effectively at store level ... right away!

- We'll look at core competency profiles for your management teams, and use them as a tool for evaluating their performance
- You'll walk away with a Competency Development Toolkit that you can use on a one-on-one basis in your stores to train and develop your management teams
- Additionally, we'll conduct an interactive forum where you'll share and learn how the best retailers are developing their store level talent

The Leader's Store Visit Forum

We've spent a lot of time working with different organizations learning about how they view and conduct store visits, whether it's by a Director or DM. Every organization is different. Yet, there are a number of best practices you need to be aware of. The Leader's Store Visit Forum is designed as an interactive module where we'll give you some great ideas, and the group will drive the discussion even deeper.

INTERACTIVE LEARNING

This isn't a 'talking head' workshop! As with all of our programs you'll be actively involved in challenging, insightful and real life discussions and debates. The experience and talent level of your fellow participants will be amazing! You'll learn an incredible amount from each other.

You don't want to miss this!
